

From SIBI Website:

Phase III Taking Shape

After a year of intensive work, forty-four Biblical courses in Spanish have been formatted and organized along with an audio menu. The Spanish version Solar Player now contains over 500 hours of Bible study material along with the complete Bible. The players are now ready to be delivered. Our many brotherhood partners are eager to put the Sunset solar players in the hands of leaders that will use the material and training to multiply their efforts across the Spanish-speaking world. With the help of God and a brotherhood of Christians committed to spreading the Kingdom, Phase III will make an impact on Latin America that will be seen for generations.

THE NEED IS THERE

Truitt Adair and Arthur Puente took an early version of the Spanish solar player to Cuba to see how it would be received. They were overwhelmed with the reception they received. There are 130 congregations spread across the 14 provinces of Cuba. Most meet in small patios or in homes, often in the house of the preacher. Some villages have little access to the outside world because of poor roads and no internet connection. The solar players in the hands of these men working in the interior of this country struggling to survive will bring the light of the Gospel to many people desperate for hope. Many Latin American nations in Central and South America, along with Mexico and other islands, are filled with similar scenes of Christians working tirelessly to preach the Gospel in remote villages with no electricity and very few Biblical resources.
