A Time and Place

So here we are! All our work, all our studying, homework, all-nighters, field trips, all of it has come to this. All our classes are over and now we move to goodbyes. 25 classmates and 6 teams all prepped and ready for take off.

Guadalajara, Sucre, Port Elizabeth, Phoenix, Salt Lake City and Miami are

all about to receive their AIMers! We spent a week and a half receiving charges and last minute lessons from our many, amazing instructors. spent one whole day with our assistants telling them how much they impacted us and how much they helped us through the past 8 months and hearing

the same from them about us. After all this we packed up and cleaned up and had our apartments inspected and we left! Started right on our VISAs and our support. Throughout the next few months we will all be making our way to our fields! Our next encounter? Graduation!

THE WALL OF FAME BEFORE APARTMENT CLEAN UP

GOODBYES
