

BILLIOT FAMILY

“Dear friend, you are faithful in what you are doing for the brothers and sisters, even though they are strangers to you. They have told the church about your love.”

- 3 John 1:5-6

Newsletter

What a glorious day to be able to share how the Lord has been working in our lives these past few months. We started classes August 14, 2017, and have been blessed by the teachers, staff and members at Sunset Church of Christ ever sense. We have also been blessed beyond measure by the individual and congregational support we have received. Because of your support my wife, Stephanie, has been able to attend classes along with me. This has been a great help to me in my studies, and she can

gain wisdom that can be used in her future work in women’s ministries. She is now working on

an associate’s degree in the women’s program, this allows her to take classes with me, but also take some classes of her own that will enrich her walk with Christ.

We have just finished our first term of classes which included: Apologetics, Old Testament History I, Spiritual Disciplines, Luke, and Introduction to Ministry. Stephanie also attended a Gracious Hospitality course, where she could learn the benefits of opening your home to others, not only now but also in the first century church. Our class work and studies have filled our days and nights, and have made a great impact on our lives already. The curriculum is designed to work together in harmony. This approach optimizes our ability to understand God’s Word, and then share that information with others.

Each term is eight weeks long, which includes a research week. We also create a notebook for each class, that includes notes and lesson plans that we can use throughout

our ministry once we graduate. I attend a preaching lab daily that is designed to build up my own ability to preach effectively. This preaching lab will continue through the two years that I attend S.I.B.I.

We also attend a daily chapel in which we hear guest speaker, every morning. During this time, we are also presented with opportunities to serve in our community, but also in times of need all over the world. It’s a time to get together with the students, AIM and SeniorAIM, and encourage one another. The morning chapels are broadcast online at <http://www.sibi.cc/chapel> or you can

check out older chapels on the Sunset International Bible Institute Youtube page. We encourage anyone that would like to visit and see the school to come

by. It would be our honor to show you what we have been learning.

We would like to express our gratitude for the support you have shown to us. We continue to feel unworthy, but strive to work hard toward our goal. Without you, this would not be possible. Thank you for your love, prayers and gifts. God has placed you in our lives and we hope that we honor your gift to us by sharing God all over this world. Our prayers are with you and your families as well as we continue in God’s path for us.

~Thank you
